William Allen White House

Did You Know?

William Allen White's house made a name of its own:

- Construction began around 1887
- Built with red sandstone from Garden of the Gods, Colorado Springs
- White family began renting in 1899
- Purchased by White family July 1901
- Frank Lloyd Wright designed a complete remodeling in 1916, most of the designs were not used in the remodeling
- House burned in 1920
- Garden was inspired by Frank Lloyd Wright design
- Famous visitors included Theodore Roosevelt, Jane Addams, and Herbert Hoover
- National Register of Historic Places, 1971
- National Historic Landmark, 1976
- Building was constructed on site during production of *Mary White*, made-for-television movie, 1977

House Specifics:

- Three-story, 5,368 square feet
 - First floor – 1,914 square feet
 - Second floor – 1,914 square feet
 - Third floor – 1,540 square feet
- Major areas
 - Living room, first floor
 - Dining room, first floor
 - Study, second floor
 - South porch

Most of the house appears as it did at the end of White's life, although the study appears as it did in the 1920s.
