   a) Future meetings:
      ▪ October 11, 2012
      ▪ January 10, 2013
      ▪ April 11, 2013
      ▪ July 11, 2013
1. **Introductions and announcements**: Patricia Michaelis, as Jennie Chinn’s representative, convened the meeting at 8:38 a.m. and began the introductions; Lisa Mendoza joined the meeting a few minutes later.

2. **Approval of minutes**: Dr. Michaelis wished to clarify that the four series from the Kansas Dept. of Transportation – Office of Financial and Investment Management were amended from a 3-year to a 5-year retention. She also wished to use “replace” rather than “transfer” under no. 6, Kansas Corporation Commission and its superseded retention schedule entries. Mr. Veatch moved, Mr. Sowers seconded, board unanimously approved minutes as amended.

3. **Kansas Dept. of Administration, Secretary Taylor: memorandum of agreement with Regents’ institutions**: Secretary Taylor outlined the responsibilities of the Department of Administration and Office of Facilities & Property Management (OFPM). He’d requested the OFPM to consider making more efficient use of and consolidating space, during which time discussions began about the architectural drawings and plans held by OFPM for the various Regents’ institutions. OFPM staff would like to transfer custody of these records to the individual institutions. The records consist of a combination of flat files of oversize plans shop drawings, as well as correspondence, specifications, and other materials in typical records boxes. There are some rolled drawings, which will hopefully be
transferred to flat storage, but no models or other three-dimensional objects. Administration will transfer items housing the records, as well as the drawings and other records themselves.

Mr. Veatch questioned the universities about what storage facilities they would have available for the plans. University of Kansas representative Jim Modig discussed current storage conditions, as well as storage space for the Medical Center’s plans, which is not adequate on-site. KU will therefore house these records on behalf of KUMC. Mr. Modig said Design and Construction Management staff had not been in discussions yet with university archives but the intention is that they will become involved when the materials are transferred. Emporia State University representative Mark Runge stated that as long as buildings are still standing, his staff will maintain control of the drawings; only the records for those buildings that have been razed or are no longer ESU property will be transferred to archives. A new university archivist has been appointed at ESU, and Mr. Runge will meet with her. Kansas State University representative Dave DeBussman proposed storing records at a building built in the 1960s, which has been storing library materials for the past few years.

The representatives noted that the majority of documents being transferred had been scanned; these scans exist in both tiff and pdf formats, depending on when they were made; OFPM plan to transfer digital copies as well as the paper copies; and Lori Ploude will also make a spreadsheet inventory available to the institutions. Mr. Veatch questioned whether the electronic was convenience or record copy. Secretary Taylor referenced a particular paragraph in the draft memorandum of agreement, noting that if the court would not accept a digital substitute, the paper copy would need to be submitted. Mr. Veatch suggested that DoA may need to revise or create an additional retention schedule for the electronic records and draft an Electronic Recordkeeping Plan. Discussion thereafter followed regarding electronic versus paper record copies; the decision was made that all memoranda of agreement would need to state that consultation with the Department of Administration must be made before changing in what format the records were maintained.

Ms. Mendoza asked how Kansas Open Records Act requests and retention requirements would be handled, requesting additional language regarding who would handle information requests for these records and that Administration’s records officer would remain responsible for all retention requirements for these records. Mr. Veatch suggested referencing KSA-45-401 through 45-414 in all memoranda of agreement. The Board generally wished to ensure that these memoranda spelled out that at least some of these records are permanent and must be maintained in accordance with all statutory responsibilities.

Secretary Taylor and his staff explained that the bulk of the records in OFPM’s storage space, about 80% of the records, will be transferred to the Regents’ institutions represented and to others. The Department of Administration would also like to transfer plans and records they hold for other smaller state agencies, but they are beginning with the Regents’ institutions because these institutions have professional staff capable of taking care of these records and are most in need of constant and/or immediate access to these records.

Motion to accept: Dr. Michaelis motioned that the Board accept the concept of this movement, Mr. Veatch seconded. Ms. Mendoza noted that because she had already discussed this with Administration and other staff she would abstain from voting. The rest of the Board voted unanimously in favor of approving Administration’s move to transfer the architectural records to the Regents’ institutions.

4. Kansas Department of Health and Environment: Mr. Paul Marx asked the Board about maintaining in-house electronic records that would have long-term retention requirements but not permanent retention, requiring transfer to the State Archives. Ms. Mendoza reiterated that the State Archivist and Board have the authority to promulgate standards to the state that must be followed. Mr. Marx asked
what costs are associated with transferring records to KEEP. He will almost certainly be the KDHE records officer but it is not official yet. He thanked the records management staff for their help.

a) Bureau of Environmental Remediation
Mr. Meerian from Environmental Remediation stated that they have at least ten years’ worth of information documenting where underground storage tanks are located in Kansas and giving the owners of these tanks permits. About 75% are gasoline storage tanks, such as located at gas stations. It is an annual permitting process. Mr. Veatch asked about the 30-year retention; the bureau’s director recommended that length. Mr. Meerian and his fellow staff stated that they do not trust the electronic copy and so wish to keep paper the record copy; the staff discussed the various concerns they have had with their imaging and document management software. Mr. Veatch stated that when the program switches over purely to electronic recordkeeping, that change will need to be documented and handled in the retention schedule.

Motion for new series: Dr. Michaelis moved approval, Mr. Sowers seconded, unanimous approval of the new retention schedule.

b) Division of Environment - Laboratory
Ms. Wiget explained that the two series under this program and the series under Newborn Screening are all interrelated and have come under discussion because of the water break at the lab, as described in previous SRB meeting minutes. Mr. Veatch requested that retention comments be changed to mimic those under the new underground storage tanks series (“Retain for 21 years, then destroy. Records are scanned and data is entered into database, but the paper copy remains the record copy.”)

Motion for revised and amended series: Dr. Michaelis moved approval of the two lab series, 0570-264 as amended, Mr. Sowers seconded; unanimous approval of revised series.

c) Bureau of Family Health – Newborn Screening
Dr. Michaelis asked when the last contact with parent or physician usually happens; Mr. Marx explained that it usually happens within the newborn’s first year of life.

Motion for revised series: Mr. Sowers moved approval, Dr. Michaelis seconded, unanimous approval of revised series.

5. Kansas Department of Transportation:
a) Bureau of Transportation Planning
These three series are all obsolete but had never been scheduled. KDOT is consolidating space and therefore requesting approval to dispose of these older records. KDOT previously received the city plat maps from the cities, rather than being the record creator, but the individual in charge of these maps felt very strongly that they needed to come to the State Archives, and maps curator Bob Knecht agreed. The county index maps used to be a mandated record created and kept by KDOT because of their interactions with the U.S. Department of Transportation. The master construction records and related ink-on-linen map book provide a great deal of historical information about road construction in Kansas.

Motion for new series: Mr. Sowers moved approval, Mr. Veatch seconded, unanimous approval of these three new obsolete series.
b) Financial Services – Office of Financial and Investment Management
This records series' schedule was tabled at the last SRB meeting; after much discussion between Ms. Maxon, OFIM staff, and records management staff, the group decided to transfer these PowerPoint presentations to the State Archives. Dr. Michaelis wondered how often these presentations are created and whether “purging” was the correct term. Ms. Maxon noted that when there is a lot of bond activity, OFIM staff will often tweak a presentation; right now they are not issuing many bonds and only creating one or two presentations in a year. Amended retention comments will read “for appraisal and possible purging.”

Motion for amended new series: Dr. Michaelis moved, Mr. Veatch seconded; unanimous approval of new series as amended.

6. Kansas State Library: Tom Roth contacted records management staff to go through retention schedules. The State Library has about 98% of their records in an annex and would like to consolidate their space usage. Many of their existing retention schedules can be superseded by the general retention and disposition schedules. Ms. Harris has sent survey forms to the State Library to discover what new records series schedules need to be created.

Motion for superseded records series: Dr. Michaelis moved approval, Mr. Veatch seconded, unanimous approval of revising retention schedules to be superseded by general retention schedules.

7. General schedule – administrative records series: The board added language to the series description regarding proposed regulations that may not be adopted; will modify comments to read “This schedule does not affect Secretary of State’s, Attorney General’s, and Department of Administration’s records created through their statutory review and filing responsibilities.” Records management staff need to contact the Dept. of Administration to discuss creation of a retention schedule specifically related to their authority to review administrative regulations, since none apparently exists.

Motion for amended new series: Mr. Veatch moved approval of general schedule entry as amended, Mr. Sowers seconded, unanimous approval of new schedule entry as amended.

8. Kansas Historical Society: The board discussed whether KHS retention schedules could be discussed when there is still a board member missing. Decided that Dr. Michaelis and Mr. Veatch would abstain from all voting on KHS schedules, and Mr. Garwood would vote as representative of the agency.
   a) Administrative Division
      Motion for new series: Mr. Sowers moved, Ms. Mendoza seconded, approved by them and by Mr. Garwood.
   b) Cultural Resources Division
      All schedules that currently read “purge and transfer to State Archives” will instead read “Transfer to the State Archives for purging.” Voting on 0322-288, records related to the Kansas Historic Resources Inventory (KHIR) database hosted by DASC and the predecessor paper inventory files, was tabled due to the obsolescence of the paper files but no electronic replacement yet presented to the board. A variety of records hosted by DASC need to be scheduled for KHS – Cultural Resources. Series 0329-288 was removed from consideration at this meeting and did not need to be voted upon. Series 0306-288 will now read, “Retain reports permanently. Retain remaining documents 5 calendar years past inactivity, then destroy. Contracts and formal correspondence fall under general retention schedules” and will have “reports” added to the series description. The new series of field notes will change retention period language to “Retain until no longer useful, then transfer to the State Archives for purging.”
Motion for amended new series: Mr. Sowers moved approval of amended new series for field notes, Ms. Mendoza seconded, approved by them and by Mr. Garwood.

Motion for amended revised series: Ms. Mendoza approved 0306-288 as amended, Mr. Sowers seconded, Mr. Garwood also approved.

Motion for revised series: Ms. Mendoza moved approval of the rest of the records series, except 0322-288 and 0329-288, as amended; Mr. Sowers seconded, both they and Mr. Garwood approved.

Motion for superseded by non-general schedules series: Ms. Mendoza moved approval, Mr. Sowers seconded; both they and Mr. Garwood approved superseding these schedules internally by other existing agency retention schedules.

Motion for obsolete series: Ms. Mendoza moved approval, Mr. Sowers seconded; both they and Mr. Garwood moved approval of obsolete series.

Motion for records series superseded by general schedules: Ms. Mendoza moved approval, Mr. Garwood seconded, and Mr. Sowers also approved superseding these schedule entries by the general retention and disposition schedule.

9. Sedgwick County e-records validation: Ms. Mendoza voted that the Board notify Sedgwick County they have received the form, thanking the county records management team for the very thorough presentation of information and referencing KSA 501 in the letter.

10. Technical changes: The Board approved of the policy adopted by the records management staff to allow staff to make technical changes without prior Records Board approval, with additional language regarding providing a summary report at each quarterly meeting for any technical changes made not including copy edits. Ms. Mendoza suggested adding this set of procedures to the State Records Board procedures adopted in 2007, and she recommended that the board take a look again at these procedures.

   Motion to approve new procedures: Dr. Michaelis motioned, Mr. Sowers seconded, new procedures approved as amended.

11. Other business: Ms. Wiget requested that the board look at July 26 for the next quarterly meeting; other two items under discussion were tabled for a later meeting. Meeting adjourned at 11:30 a.m.
State Records Board
19 June 2012 administrative meeting
Executive Conference Room, Center for Historical Research
Kansas Historical Society

Members present:
Lisa Mendoza, chair, designee of the Attorney General
Bill Sowers, designee of the State Librarian
Matt Veatch, State Archivist
Pat Michaelis, designee of the KHS Executive Director

Also present:
Darrell Garwood, State Records Manager, KHS
Lu Ann Harris, records specialist, KHS
Marcella Wiget, archivist, KHS
Martin Gengenbach, electronic records specialist, KHS

Meeting brought to order at 9:15 a.m. by Lisa Mendoza.

1. Orientation for new State Records Board member: No new State Records Board member has been chosen from the Department of Administration. Marty Gengenbach introduced himself to the State Records Board members who had not already met him. Staff will send Secretary Taylor a courtesy letter or phone call about the next quarterly meeting.

2. 2007 State Records Board procedures: Mr. Veatch provided some historical background about the procedures, which were not the first in written form; there had been procedures adopted back in the late 1980s or early 1990s that had subsequently been revised. The discussion then turned to updating and revising the 2007 procedures in order to ensure they were up-to-date. Mr. Veatch questioned whether the SRB could adopt these kinds of procedures without going through the formal administrative regulation procedure. He pointed out that the ERC / ERP does not come from any statute. Discussion followed; Ms. Mendoza discussed guidance documents, which must come from statute. Mr. Veatch pointed out that he has the right and duty to provide recommendations for promulgating standards for electronic records preservation and access, and that through this the board could regularize #3 on the procedures list. Mr. Gengenbach and Mr. Veatch plan to bring to the board at the October meeting standards for government electronic records that the board can approve.
   a. Staff will prepare changes to the procedures document as discussed and bring it to the July board meeting. Discussion followed regarding incorporating the State Archives staff’s procedures, approved at the 19 April 2012 meeting, and decided to contain all information in one document.

3. Records management and SRB webpages on kshs.org: Need to add SRB meetings to the Kansas Historical Society’s events calendar; Mr. Garwood will talk to KHS’s public information officer. The board and staff then discussed revising the SRB webpages hosted by KHS, attempting to make the pages easier to read and more pleasing to the eye. Mr. Veatch recommended that State Archives staff work on the website and then email the Board with the link for their input. He also mentioned that one of the State Archives staff’s goals in the 6-9 months is to update the information on the records management pages, many of which are out-of-date.
4. **Update on migration errors in records management database**: In the 2008 migration of the records management database, dates were dropped in some retention schedules that still retained their KAR numbers; staff are working with the KHS database administrator to correct this issue. Discussion followed regarding the Appellate Courts’ retention schedules that are publicly available on the KSHS website. Need to contact Carol Green and the courts and ask whether they would like these schedules to remain public (and clearly marked as advisory) or whether the schedules should be taken off the website. Mr. Veatch mentioned that he and Mr. Gengenbach had just attended an Information Technology Advisory Board (ITAB) meeting regarding electronic filing in the courts, and that the appellate courts are part of a pilot project for e-filing. It would be ideal if those records were transferred to KEEP.

5. **Implementing limited technical changes RM staff can make without consulting the SRB**: Staff provided an update about meeting with Christine Desmuke, database administrator for KHS. Staff are uncertain that these administrative changes will be physically possible in the database by the July meeting. The board discussed adding another administrative change the State Archives staff could perform without prior approval from the SRB, namely superseding general-schedule entries on agency-specific schedules. If approved, these changes would also be included on reports submitted to the Board. Staff will provide language in the updated procedures to the State Records Board at the July meeting for their consideration.

6. **Other business**: No further business. Meeting adjourned at 10:23 a.m.

8. **Appraisal Based Upon:**

   Discussions with Hutchinson Correctional Facility’s Records Officers Barb Schneider and Elizabeth Smith, emails with other correctional facilities' records officers and Mary Chambers.

9. **Appraisal Narrative:**

   Hutchinson Correctional Facility staff contacted the State Archives Division to pick up boxes of archival records. This led to a discussion about reviewing DOC facilities’ retention schedules, which mostly have not been reviewed since the early 1990s. State Archives staff are submitting a portion of the schedules for approval. The majority of the series brought today have been superseded by the general retention and disposition schedule. Several series have been superseded by other existing agency retention
schedules. Additional series have been determined obsolete and are no longer being created. More agency-specific schedules will be appraised for future State Records Board meetings.

8. **Appraisal Based Upon:**

   Discussions with records officer.

9. **Appraisal Narrative:**

AG’s records officer requested, on behalf of program staff, revision of the Claim Files series under the Crime Victims Compensation Board. The CVCB receives many more records and pieces of information than they need or than the Board looks at in order to make their decisions about compensation, and Ms. Mendoza wanted to clarify the schedule to allow staff to dispose of these extraneous materials sooner.

State Records Board and Support Staff Operational Procedures

I. State Records Board General Procedures

A. The State Records Board (SRB) will conduct regular quarterly meetings at the Kansas State Historical Society's Center for Historical Research on the second Thursday of January, April, July, and October, unless rescheduled by the Board chairperson. Special meetings will be held when called by the Board chairperson. All meetings will be fully open to the public as required by the Kansas Open Meeting Act. Board packets will be made available online before meetings.

B. State agencies and local government offices seeking approval from the SRB for records disposition requests, new retention and disposition schedules, revisions to existing schedules, microfilming standards, or other related matters must be submitted to the State Archivist, in the format recommended by Historical Society staff, at least one month (30 days) before the Board meeting at which the requests will be considered.

C. The State Records Board will not accept or approve retention and disposition schedule entries already addressed by the State and Local Government General Retention and Disposition Schedules. The Board will consider requests that alter the requirements established by the State and Local Government General Retention and Disposition Schedules.

D. Historical Society staff will prepare a written appraisal report regarding each disposal request. In addition to conclusions regarding the historical and research values, these recommendations will contain information about any state and federal statutes or administrative regulations related to the preservation of the records or restrictions on public access to them and any other information necessary for the board to make an informed decision.

E. Record retention and disposition schedules will be submitted to the Secretary of State within one month after each meeting. The requesting agency will be notified of Board actions, and the retention and disposition schedules will be updated online, within one month after each meeting. The Kansas State Historical Society will retain permanently a complete board packet for each meeting.

II. State Archives Staff Procedures
A. Prior to the Board meeting, unless obviously unnecessary or infeasible, the State Archivist and/or a member of his/her staff will visit the agency or local office and carefully examine the records listed in each disposal request.

B. Copies of the draft retention and disposition schedule, the written appraisal reports of the Historical Society staff, minutes from the previous meeting, and the meeting agenda will be distributed to all Board members at least four days before each meeting.

C. State Archives staff will notify the Board of any records series rendered obsolete or transferred to another agency.

III. Authorized Changes to Retention and Disposition Schedules Without Prior State Records Board Approval – Changes Made by Records Management Staff

A. The SRB authorizes Records Management staff at the Kansas State Historical Society to make the following limited technical changes to records retention schedules without further review and approval by the SRB:

1. Make copy editing changes to improve the accuracy of the text, such as correct typos or spelling, modify punctuation, grammar, terminology, jargon, formatting, and other like technical revisions consistent with the intent expressed by the SRB;

2. Amend series title(s) based upon additional input from agency staff to more accurately reflect the nature of the records at issue;

3. Make description enhancements that do not substantially alter the content, function, and subject matter of the records;

4. Update restriction information to reflect current statute or regulation numbers where no substantive change to the statute or regulation has occurred, and no additional restriction has been added or restriction removed;

5. Modify retention schedules, without altering any substantive content in the retention schedule itself, to reflect agency reorganizations or changes to agency hierarchy, such as moving a records series from one sub-agency to another or from one agency to another;
6. Update instructions for retiring records to the State Records Center or other inactive records storage facility before destruction or transfer to the State Archives;

7. Add comments or notes for internal use only to aid records management staff in their work; and

8. Supersede agency-specific versions of general retention and disposition schedules that match word-for-word those same general schedules.

B. All other changes, corrections, modifications, amendments, revisions, or revocations require the review and approval of the State Records Board.

C. At each meeting, records management staff shall provide the Board with a summary report of any changes made pursuant to the provisions of Section III.A.2. through III.A.8. since the previous Board meeting.

IV. Procedures Specific to Electronic Records

A. The State Records Board and the Electronic Records Committee (ERC), a sub-committee under the Information Technology Advisory Board (ITAB), will cooperate to review and approve electronic recordkeeping plans, and any such plans will be submitted in conjunction with the state agency retention and disposition schedule. Electronic recordkeeping plans must be presented to and endorsed by the Electronic Records Committee prior to their submission to the SRB meeting. The purpose of offering the electronic recordkeeping plan to the ERC is for their technical review before submission to the State Records Board.
