Information about Plaques for Historic Properties

Owners of properties that are listed in the National Register of Historic Places and/or the Register of Historic Kansas Places may wish to display a plaque on their building noting its significance. Although our office encourages owners to display a plaque recognizing their sources that have catalogs with the different styles of plaques. There may be some local companies not listed that sell custom plaques, too.

For questions about this or other historic preservation matters, please contact the State Historic Preservation Office at 785-272-8681, ext. 240 or e-mail at kshs.shpo@ks.gov.
