Recent Additions to the Library
Compiled by Helen M. McFarland, Librarian

Since the library is specialized, books which are purchased or received by gift generally fall into the following classes: The Kansas library, including books by Kansans and books about Kansas; the western section, covering explorations, overland journeys and tales of the early West; genealogy and local history, including family histories, vital records, Revolutionary records, publications of patriotic and hereditary societies, and state, county and town histories; and books on the Indians of North America, United States history and biography.

We are always interested in obtaining information about Kansas authors and their work and shall consider it a great favor if our readers will send us any information that will put us in touch with local authors.

The following books have been added to the library from October 1, 1930, to October 1, 1931:
