Recent Additions to the Library

Compiled by Alberta Pantle, Librarian

IN ORDER that members of the Kansas State Historical Society and others interested in historical study may know the class of books the Society's library is receiving, a list is printed annually of those accessioned in its specialized fields.

These books come from three sources, purchase, gift, and exchange, and fall into the following classes: Books by Kansans and about Kansas; books on American Indians and the West, including explorations, overland journeys, and personal narratives; genealogy and local history; and books on United States history, biography, and allied subjects which are classified as general. The out-of-state city directories received by the Historical Society are not included in this compilation.

The library also receives regularly the publications of many historical societies by exchange, and subscribes to other historical and genealogical publications which are needed in reference work.

The following is a partial list of books which were received from October 1, 1963, through September 30, 1964. Federal and state official publications and some books of a general nature are not included. The total number of books accessioned appears in the report of the Society's secretary printed in the Spring, 1965, issue of The Kansas Historical Quarterly.
