The Railroad Retirement Act provides that an employee, in order to be credited with service rendered an "employer" prior to January 1, 1937, must have been in compensated service of an "employer" on August 29, 1935, enactment date of the law, or in an employment relation on that date.

Section 4 of Form AA-2P, which we are required to complete in connection with the prior service record work calls for statement of the employee's employment relation status on August 29, 1935. In order that we may be definitely informed in the matter please indicate herein whether the employee referred to above was in compensated service on August 29, 1935. (Yes or No). YES. It is compensated service on that date, or received compensation although not actually working (e.g. for instance on leave of absence with pay or reinstatement with pay) the answer is Yes. If for ANY REASON no work was performed on that date and no compensation received then the answer is "No". If the answer is "No" then please complete Form ERR-8 or ERR-8a, whichever is applicable in accordance with the Railroad Retirement Board's regulations and instructions you have received from the General Manager or executive head of your department. Completed Forms ERR-8 or ERR-8a in triplicate should be sent to the General Manager with transmission letter requesting that the original and duplicate be approved in correct and forwarded to this office.

This form letter should be signed in the space provided below. Those form letters in which answer "Yes" is shown by the employment relation status should be immediately returned to this office while those in which the answer "No" is shown should accompany Form ERR-8 through the channel referred to above.
