DESCRIPTION

The Stradal House is a one-story, two bedroom, front-gabled Lustron dwelling with a Westchester Deluxe Plan. The 31-foot by 35-foot house has “Desert Tan” walls with white trim and a dark green roof.

Resting on a concrete slab foundation, the dwelling has a south-facing, rectangular plan. Porcelain enameled steel panels clad all exterior surfaces. Two-foot by two-foot panels sheath the dwelling’s four walls. Narrower, vertical panels, approximately one-foot wide, cover the gable ends. Square “shingles”, approximately one-foot square, cover the roof. The eaves of the front-gabled roof overhang slightly on all sides of the dwelling.

One end of each gutter running along the long (east and west) sides of the dwelling terminates in a downspout that is angled slightly toward the house. A wavy steel dowel fills the space between the downspout and the dwelling wall to create a trellis.

Openings asymmetrically pierce the walls of the dwelling. The steel windows have enameled steel surrounds and appear in three configurations: 1) a tripartite bay window, featuring a large plate of fixed glass flanked by four-light aluminum casements, projects slightly from the east wall of the building in a paneled steel surround just north of the dwelling’s southeast corner; 2) tripartite windows of the same configuration but flush with the body of the dwelling pierce the dwelling’s south, west and east elevations; and 3) three-light casements, arranged singly and in pairs, pierce the north and west elevations.

The front porch is recessed below the front gable at the southeast corner of the dwelling, with the front door in the south elevation facing the driveway. The back door is approximately centered in the west elevation. Both openings appear to retain their original doors as well as aluminum storm doors of a modern vintage.

The interior of the dwelling retains its original Lustron materials and built-in features. Like the exterior, porcelain-enamed steel panels clad the interior walls and ceilings. The wall panels typically measure two-feet by eight feet, with some larger panels below windows, while the ceiling panels are eight feet square. Modern carpet covers the original asphalt tile flooring.

The living room-dining area occupies the southeast portion of the dwelling, with the kitchen and utility room filling out the southwest corner. The bathroom and two bedrooms are located at the north end of the dwelling.

The dwelling retains much of original kitchen cabinetry as well as the built-in china cabinet in the dining area with the pass-through to the kitchen. This latter feature distinguishes the dwelling as a Deluxe edition of the Westchester house model. Other built-in features characteristic of the Deluxe Westchester include built-in bookshelves in the living room, a mirrored vanity in the master bedroom, and closets and overhead storage throughout the dwelling.

Site

This property occupies a mid-block lot on the west side of Thirteenth Street. A concrete drive runs along the south side of the house with a walk extending perpendicularly from the end of the driveway to the back door. The concrete front walk runs adjacent to the driveway from the street to the front porch.
A chain link fence runs along the west (rear) property line. At the northwest corner of the lot is a small, modern shed with vertical metal siding and a front gable roof. Flowering shrubs dot the grassy lot and flowers are planted in beds along the foundation and in the back yard.

INTEGRITY
The Stradal House is an excellent example of a two-bedroom Westchester Deluxe Lustron dwelling. Well maintained since its construction, it is in excellent condition and retains the majority of its original features, such as windows, exterior and interior doors, dining room “pass-thru”, and storage throughout the house. Appropriate alterations in recent years have been limited to replacing the countertops, overhead cabinet doors, sink and base cabinets in the kitchen, and installing carpeting over the original tile floor. These limited modifications do not impact the overall integrity of the property and the original workmanship, materials, design setting, feeling and association of the property are readily apparent.

Stradal House
Trego County, Kansas

STATEMENT OF SIGNIFICANCE

The Stradal House is significant under National Register Criterion C for the area of ARCHITECTURE. It is an excellent example of the Lustron House property type, and it is one of only one hundred Lustron houses extant in Kansas. The property is also an excellent example of the Westchester Deluxe Lustron, the original and most popular Lustron model. Although quite a few Lustrons remain extant in southwest and southcentral Kansas, this is the only Lustron in Trego County.

In an effort to solve the post-World War II housing crisis, the Lustron Corporation, lead by Carl Straflund, applied porcelain-enamed steel technology to residential design, producing a pre-fabricated dwelling that was “...fireproof, ratproof, decay-proof, [and] termite proof. Will never deteriorate or stain, never fade, crack or peel, never need painting, refinishing or reroofing [sic]” (Lustron Corp). Available in two-and three-bedroom models, these dwellings resembled typical, wood-frame post-war dwellings. However, their steel frames clad on the interior and exterior with porcelain enamel-coated steel panels distinguished Lustrons from more traditional contemporary residential construction.

The Reconstruction Finance Corporation rewarded Straflund’s efforts with $32.5 million in federal aid, plus the lease of a vacated airplane factory in Columbus, Ohio, for production of the dwelling components. Straflund applied the tenets of automobile assembly-line mass-production to the Lustron. At the factory all of the components for each dwelling were loaded on a specially designed truck trailer and delivered to the building site, where company-trained builders erected the dwelling following the Lustron instruction manual. The company actively produced Lustron houses between summer 1948 and June 1950. In Kansas Lustrons sold for around $10,000. Sales of Lustron homes never exceeded 250 units per month, far short of the 17,000 units per year that the company promised. The RFC filed foreclosure in March of 1950, and the company ceased production in June of that year having shipped fewer than 2500 of these unique all-steel dwellings nationwide.

SITE HISTORY

John and Agnes Stradal were the original owners of the Lustron and 409 North 13th Street. Both were natives of Trego County. Married in 1942, they moved to Wakeeny in 1945 to raise their two children. Mr. Stradal was a farmer and later worked as a banker (Stradal 2000). The Stradal family fit the profile of the typical buyer to whom Straflund marketed the Lustron house. Solidly middle-class with a baby boom family, the Stradals were attracted by the reasonable cost of building a Lustron, which was less than building a traditional wood-frame house, as well as by the modern conveniences and low maintenance offered by the Lustron. They purchased their house lot in December 1949, and after watching the company erect other Lustrons, contracted Leo J. Dreiling, the Hays Lustron dealer, to erect their two bedroom Westchester Deluxe dwelling (Stradal 2000; Trego County Deed Records 53:49).

Over 25 years after its construction, the Stradals sold their Lustron to First WaKeeney Investments, Inc. in September 1975. First WaKeeney used the house as rental property until selling it to Terry and Tracey Berry in August 1984 (Trego County Deeds 69:613; 73:443). Like many Lustron owners, Mrs. Berry appreciates the maintenance-free characteristics of the home.
