

# *Read Kansas!*

*By the Kansas State Historical Society*

If you look up from the first floor, this is the view of the inner dome.

The word "capitol" means "building."  
The Capitol is an office building.  
It is in Topeka.  
This is where people do the work of state government.  
Their work is very important.  
The people of Kansas are proud of their state.  
That is why they built a grand building.

The Capitol  
took a long  
time to build.  
It was built in  
sections.
